Physical Medicine & Rehabilitation

CLINICAL FOCUS

A. Sercan Soyarslan works with patients who have spinal complaints, including lumbar disc herniation, cervical disc herniation, facet joint syndrome and postural alignment concerns such as reduced lumbar lordosis and reduced cervical lordosis.

A further part of his practice is movement disorder treatment, including Parkinson's rehabilitation. In this setting the aim is to support movement, balance and everyday function through structured physiotherapy, using approaches drawn from his training in manual mobilization, Kinesio Taping and clinical Pilates where they are...
