CLINICAL FOCUS

A substantial part of Dr. Oran's work concerns the nose and sinuses. He evaluates and treats sinusitis and disorders of smell and taste, and he performs rhinoplasty for patients with functional or aesthetic concerns about the nose. In the ear, his interests include hearing loss in adults, pediatric hearing loss, tinnitus and vertigo.

Dr. Oran's throat and voice practice includes hoarseness, snoring, tonsil surgery and dysphagia (swallowing difficulties). He assesses salivary gland diseases and oral, tongue and tongue-base cancers; in these cases the initial evaluation focuses on establishing a diagnosis and outlining the possible directions for further management.

Hoarseness

INTERNATIONAL PATIENTS

Dr. Oran consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, for example MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the...
