DEPARTMENT

Hair Transplant

## CLINICAL FOCUS

Dr. Etöz's listed areas of expertise cover both aesthetic and reconstructive problems. On the aesthetic side, these include nasal shape abnormalities and facial asymmetry. He has co-authored morphometric and statistical shape analyses of the nose and nostril forms in young adults and of facial asymmetry in young healthy subjects,...

His reconstructive work includes parotid duct injury and parotid duct repair, nail bed injuries and nail bed splinting, and the management of venous congestion after digit reimplantation, for which he has described a milking technique for reimplanted digits with insufficient venous drainage.

Diabetic foot ulcers

Negative pressure wound therapy

Parotid duct injury

Parotid duct repair

Venous congestion after digit reimplantation

## CONDITIONS TREATED

Pressure ulcer

Hand injury

Venous congestion after digit reimplantation

Milking technique for reimplanted digits

Nail bed splinting
