DEPARTMENT
Bariatric & Metabolic
Surgery

CLINICAL FOCUS

Dr. Alan's clinical work covers a range of general surgical conditions. In endocrine surgery, his areas of expertise include thyroid surgery. In abdominal surgery, he assesses and treats cholecystitis (inflammation of the gallbladder), umbilical hernia and inguinal hernia. He also performs colorectal surgery and treats hemorrhoidal and anorectal diseases. Mastectomy is also among his listed areas of expertise.

Within the Bariatric & Metabolic Surgery unit, Dr. Alan is involved in obesity surgery. Robotic surgery is one of his subspecialties, and the choice of surgical approach, including whether a robotic technique is relevant, is considered on a case-by-case basis according to the patient's condition, general health and previous treatments.

Thyroid Surgery

Robotic Surgery

Cholecystitis

Endocrine Surgery

Umbilical Hernia

INTERNATIONAL PATIENTS

Dr. Alan consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the international patient team coordinates the collection of prior reports and imaging, such as ultrasound, CT or MRI reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the hospital visit.
