CLINICAL FOCUS

Dr. Doğan's clinical interests cover a broad range of emergency presentations. In trauma care, his role involves the initial evaluation and stabilization of injured patients and the coordination of further diagnostic steps and treatment as needed. In burn treatment, he assesses the extent and depth of burn injuries and provides initial management.

He also manages environmental emergencies, meaning acute conditions caused by exposure to environmental factors, as well as drowning and acute hypoxia, where restoring adequate oxygenation is the immediate priority. Cases of airway obstruction require rapid assessment and intervention to secure breathing, and Dr. Doğan is experienced in these emergency interventions.

INTERNATIONAL PATIENTS

Dr. Doğan consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. The hospital's international patient team coordinates the collection of prior medical reports and imaging, arranges appointments, and organizes the hospital visit.
