HOSPITAL

Acibadem Kent Hospital
(Izmir)

DEPARTMENT

Pediatric Nephrology

CLINICAL FOCUS

Dr. Keskinoglu evaluates and manages children with nephrotic syndrome and pediatric urinary tract infections. A substantial part of his practice involves children on dialysis, including dialysis management, blood pressure management, assessment of low-density lipoprotein risk and attention to vasculopathy in this group.

In pediatric kidney transplantation, his work covers the care of transplant recipients, kidney transplant biomarker assessment and the management of Epstein-Barr virus DNAemia after transplantation.

Nephrotic syndrome in children

Pediatric urinary tract infections

Pediatric kidney transplant recipient care

Epstein-Barr virus DNAemia after pediatric kidney transplantation

Pediatric dialysis management

CONDITIONS TREATED

Nephrotic syndrome in children

Pediatric urinary tract infections

Renal involvement in tuberous sclerosis
