CLINICAL FOCUS

Dr. Öztürk's practice covers both malignant and non-malignant hematology. He evaluates and treats patients with acute lymphoblastic leukemia and acute myeloid leukemia, with chronic myeloid leukemia, and with other bone marrow diseases. CAR T-cell therapy is among the treatment approaches within his area of expertise.

He also sees patients with anemia, including iron deficiency anemia, and with immune-related conditions such as immune thrombocytopenia and Henoch-Schönlein purpura. Castleman disease is also within his field.
