CLINICAL FOCUS

Dr. Temizyürek's clinical practice is centered on anesthesiology and intensive care. In the intensive care setting, his work involves the treatment of patients whose condition requires continuous monitoring and organ support, as well as advanced life support for patients in critical situations.

His areas of expertise also include palliative care, which is directed at relieving symptoms and supporting comfort in patients with serious illness, and pain management. Pain management plans depend on the cause and nature of the pain and on the patient's overall health;
