CLINICAL FOCUS

In gynecology, Dr. Varolan sees patients with polycystic ovary syndrome, menopause-related symptoms, HPV, and sexually transmitted infections. Menopause is one of his subspecialty interests, and consultations in this area typically involve a review of symptoms, medical history and any previous treatment before options are discussed.

His surgical and procedural work includes hysterectomy and genital aesthetic procedures, including vaginal whitening and vaginal tightening. Whether a procedure is appropriate depends on the individual patient's examination findings, symptoms and general health, and this is assessed on a case-by-case basis. In obstetrics, Dr.
