Acibadem Bakirkoy
Hospital, İstanbul

DEPARTMENT
Gynecology & Obstetrics

CLINICAL FOCUS

Dr. Kazado's practice spans the two main branches of his field. In gynecology, he sees women with gynecological conditions at different stages of life, taking a history, assessing symptoms, reviewing any prior findings, and discussing the management options that may be considered. In obstetrics, he provides obstetric care and pregnancy care, following expectant mothers through pregnancy according to clinical need.

Because gynecological conditions is a wide area, general information on some of the conditions commonly seen in a gynecology unit is available on this site, including endometriosis, ovarian cysts, polycystic ovary syndrome, vaginal infections, and pelvic organ prolapse. Whether a particular condition or procedure falls within Dr.

INTERNATIONAL PATIENTS

Dr. Kazado consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as ultrasound, MRI or CT reports, laboratory and pathology results, operative notes, and discharge summaries, and arranges appointments and the hospital...
