HOSPITAL
Acibadem Kent Hospital (Izmir)

DEPARTMENT
General Surgery

CLINICAL FOCUS

Dr. Hacıoğlu's surgical work centers on the digestive system. He evaluates and operates on patients with gastrointestinal and colorectal conditions and manages diseases of the pancreas, the biliary tract and the liver. Further information on the conditions treated at the hospital is available on the liver disease treatment page.

A second area of his practice is proctology. He treats hemorrhoids and other anorectal diseases, an area in which he has also contributed to published research. In endocrine surgery, his focus is on thyroid surgery and related endocrine surgical conditions.
