## CLINICAL FOCUS

Dr. Demirel's clinical practice centers on surgery of the digestive system. This includes the assessment and surgical management of diseases of the liver, pancreas and bile ducts, among them gallbladder and bile duct cancers and cholecystitis, an inflammation of the gallbladder. He also undertakes colorectal surgery, including surgery for colorectal cancer.

A second part of his work concerns hernias and anorectal disorders. He treats inguinal hernia and umbilical hernia, and he manages hemorrhoids and other anorectal conditions such as anal fissure. His areas of expertise include:

Digestive System Surgery

Gallbladder and Bile Duct Cancers

Cholecystitis

Robotic Surgery

Liver, Pancreas and Bile Duct Diseases

## INTERNATIONAL PATIENTS

Dr. Demirel consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, for example MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the...
