Hospital, İstanbul

DEPARTMENT
Organ Transplantation

CLINICAL FOCUS

Dr. Özer's areas of expertise include liver cancer, liver failure, fatty liver disease, and pancreatic, liver and biliary tract diseases. He treats gallbladder inflammation (cholecystitis) as well as gallbladder and bile duct cancers, and his practice includes oncological surgery.

Beyond hepatobiliary surgery, Dr. Özer performs endocrine surgery, including thyroid surgery, and treats inguinal hernia; his publications include a case report of an Amyand hernia presenting as an incarcerated recurrent inguinal hernia. He also manages hemorrhoidal and anorectal diseases.

Liver cancer Pancreatic, liver and biliary tract diseases
Fatty liver disease Liver failure
Gallbladder inflammation (cholecystitis)
