CLINICAL FOCUS

A substantial part of Dr. Özdemir's practice is aesthetic dentistry. This includes porcelain restorations, dental laminates, zirconia restorations, and composite bonding. The choice between these approaches depends on the condition of the existing teeth, the extent of the changes the patient is seeking, and findings from the clinical examination, and Dr.

He also provides orthodontic treatment with metal braces, ceramic braces, and lingual braces, and he is involved in orthognathic surgery for patients with jaw retrusion, where the relationship between the jaws affects bite, function, or facial balance. In addition, Dr.
