CLINICAL FOCUS

Dr. Şahin evaluates and treats a range of conditions of the digestive system. His areas of expertise include pancreatic, liver and biliary tract diseases, cholecystitis, and gallbladder and bile duct cancers. He also performs colorectal surgery and treats small intestine cancer and inguinal hernia.

A further part of his work is the treatment of hemorrhoids and anorectal diseases, including anal fissure. In endocrine surgery, his practice includes thyroid surgery. Dr. Şahin also assesses and operates on patients with breast cancer.
