Hospital, İstanbul

DEPARTMENT
Urology

CLINICAL FOCUS

A large part of Dr. Tekin's practice concerns the prostate: the diagnosis and treatment of prostate diseases and the assessment and management of prostate cancer. Within urological oncology he also sees patients with bladder and kidney tumors.

He also treats functional and reproductive conditions. These include bladder health and urinary incontinence, urogynecology, andrology and male reproductive health, and infertility. In addition, his practice includes pediatric urology.

Kidney stones
