CLINICAL FOCUS

Dr. Uçar's first area of focus is emergency assessment: the initial evaluation of patients who arrive with acute symptoms, injuries or a sudden change in an existing condition. This involves taking a history where possible, examining the patient, identifying which problems require immediate attention and deciding which investigations are...

His second area is urgent care management, meaning the treatment and stabilization of patients in the emergency setting and the decisions about whether a patient can be treated and discharged, should be observed or needs admission or referral to another specialty. The third area is emergency service coordination.
