CLINICAL FOCUS

A central part of Dr. Demireller's work is the evaluation and surgical care of head and neck cancers, including oral cancer. Head and neck surgery in this setting involves careful assessment of the tumor site and the surrounding structures, together with a review of any existing imaging and pathology reports, before treatment options are...

His practice also includes nasal and sinus surgery. This covers septoplasty for a deviated nasal septum and septorhinoplasty, which combines correction of the septum with reshaping of the nose; patients considering the latter may also wish to read about rhinoplasty.
