Orthopedics & Joint Center

CLINICAL FOCUS

A central part of Dr. Bölükbaşı's practice is joint replacement. He performs hip replacement surgery and knee replacement surgery for patients whose joints have been affected by osteoarthritis, joint arthrosis and other joint diseases. In these conditions, the decision to proceed with surgery generally depends on the degree of joint damage, the level of pain and functional limitation, and the response to earlier non-surgical...

Dr. Bölükbaşı also treats sports injuries and trauma. His areas of expertise include meniscus tears, cruciate ligament tears, muscle tears and other knee and joint injuries, as well as trauma of the musculoskeletal system. The appropriate approach varies from case to case and may be conservative or surgical, depending on the type and extent of the injury, the patient's age and activity level, and the findings of the clinical...

INTERNATIONAL PATIENTS

Dr. Bölükbaşı consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the hospital...
