Hospital, İstanbul

DEPARTMENT
Anesthesiology &
Reanimation

CLINICAL FOCUS

Dr. Yentür focuses on the non-surgical treatment of acute and chronic pain. He assesses and treats low back pain, neck pain and upper back pain, cancer pain, neuropathic pain and peripheral neuropathy.

Because pain conditions differ widely in cause and course, the choice of approach is made after a careful review of the individual case, and not every method is suitable for every patient. Treatment planning is discussed with the patient and adjusted to the clinical findings.

Non-surgical treatment of acute and chronic pain
Joint injections
Cancer pain treatment
Peripheral neuropathy
Neuropathic pain

CONDITIONS TREATED

Cancer pain treatment
Peripheral neuropathy
Neuropathic pain
Low back pain
Neck pain
