Hospital, İstanbul

DEPARTMENT
Internal Medicine

CLINICAL FOCUS

Dr. Medetalibeyoğlu evaluates and manages a range of internal medicine conditions. Thyroid disorders and their treatment are a particular focus of his practice. He also provides diagnosis and treatment of metabolic disease, including type 1 diabetes, type 2 diabetes and prediabetes, and he offers medical management of obesity.

In addition, he assesses and treats acute presentations such as edema, poisoning, upper respiratory tract infections and gastroenteritis. His clinical interests also extend to anemia, digestive system disorders, and diseases of the liver, pancreas and biliary tract.

Poisoning

Upper respiratory tract infections

INTERNATIONAL PATIENTS

Dr. Medetalibeyoğlu consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as laboratory results, ultrasound or other imaging reports, pathology results and discharge...
