CLINICAL FOCUS

Dr. Eken evaluates and treats a range of kidney conditions, including kidney diseases, kidney cancer, kidney stones, kidney failure and hydronephrosis. Patients presenting with blood in the urine are assessed to identify the underlying cause.

In andrology, he addresses male reproductive health, infertility and sexual dysfunction, and he diagnoses and treats sexually transmitted infections. His work in prostate and urethral diseases and in urogynecology extends to bladder health and urinary incontinence, as well as pelvic floor concerns.
