İstanbul

DEPARTMENT

Otorhinolaryngology (ENT)

CLINICAL FOCUS

A central part of Dr. Özdilek's work is head and neck surgery for cancers of the oral cavity, tongue and tongue base and other head and neck cancers.

Evaluation and treatment planning for these conditions are based on the patient's history, clinical examination and existing imaging and pathology findings.

In otology and neurotology, his practice includes assessment of vertigo and balance disorders and hearing rehabilitation with cochlear implants in suitable candidates. He performs nasal and sinus surgery, including rhinoplasty, and general ENT procedures such as tonsillectomy.
