Hospital, İstanbul

DEPARTMENT
Otorhinolaryngology (ENT)

CLINICAL FOCUS

A large part of Dr. Özagar's practice concerns the nose and sinuses. He assesses and treats sinusitis and other nasal and sinus conditions, using nasal endoscopy as part of the diagnostic evaluation where appropriate.

In children and adults, Dr. Özagar performs tonsil surgery and adenoid surgery, and he assesses hearing loss in children, which can be related to middle ear conditions or other causes. Middle ear surgery is a further area of his surgical practice. Whether surgery is advisable, and which technique is suitable, depends on the individual findings;

Nasal and sinus surgery

Septoplasty

Septorhinoplasty

Tonsil surgery

Adenoid surgery

INTERNATIONAL PATIENTS

Dr. Özagar consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as CT or MRI reports, audiology and laboratory results, operative notes and discharge summaries, and...
