DEPARTMENT
Radiology

CLINICAL FOCUS

Dr. Ortakçı's clinical work centers on diagnostic imaging. His areas of expertise include breast diseases and mammography, magnetic resonance imaging, computed tomography and ultrasonographic imaging. In breast imaging, mammography and ultrasonography are commonly used to evaluate symptoms and findings;

He also has expertise in virtual angiography, a method of visualizing blood vessels using cross-sectional imaging data rather than a catheter-based procedure. Whether such an examination is appropriate depends on the patient's history, symptoms and any previous imaging.
