Cardiovascular Surgery

CLINICAL FOCUS

Dr. Ercan's practice is focused on vascular surgery, with particular attention to disorders of the veins and lymphatic system. She assesses and treats patients with venous insufficiency and varicose veins, and she also manages lipedema and lymphedema, conditions that cause chronic swelling of the limbs and often require a structured,...

Her published and presented work spans several areas of cardiovascular surgery. Topics include the effects of trimetazidine, glucose-insulin-potassium and magnesium solution on the myocardium during beating heart and off-pump coronary artery bypass surgery, vascular complications of intra-aortic balloon pump use, mid-term results of the...
