CLINICAL FOCUS

Dr. Ertürk's clinical practice covers a broad range of airway and lung diseases. She evaluates and manages patients with asthma and chronic obstructive pulmonary disease, as well as obstructive sleep apnea syndrome and other sleep-related breathing disorders.

Her published research reflects these interests and includes studies on gait speed and asthma control, echocardiographic findings in asthmatic patients, cognitive and motor performance in chronic obstructive pulmonary disease, choroidal vascularity in obstructive sleep apnea syndrome, particulate matter and sulfur dioxide exposure in...
