Gastroenterology

CLINICAL FOCUS

A central part of Dr. Tiftikçi's practice is inflammatory bowel disease, including the treatment of Crohn's disease and ulcerative colitis. She also evaluates and manages upper digestive conditions such as reflux, gastritis and dyspepsia, Barrett's esophagus and celiac disease.

Her subspecialty areas include the treatment of hemorrhoids and anorectal diseases and digestive system diseases and surgery. Patients with anorectal complaints or broader digestive system conditions are assessed on an individual basis, and the options discussed depend on the findings of the clinical evaluation and any endoscopic...
