Acibadem Bakirkoy Hospital, İstanbul

DEPARTMENT

Physical Medicine & Rehabilitation

CLINICAL FOCUS

Aslı Hacıoğlu's areas of expertise are physical medicine and rehabilitation, spine health, rehabilitation care and physical function support. In practice, this means working with patients whose mobility, strength or daily function has been affected and who may benefit from a planned rehabilitation program.

Rehabilitation care in this setting is typically individualized. The starting point is an assessment of the patient's current physical function, their history and any previous treatment, followed by a rehabilitation plan that is reviewed and adjusted as the patient progresses. Goals are set together with the patient and are generally directed at supporting movement, function and independence in everyday activities.

INTERNATIONAL PATIENTS

Aslı Hacıoğlu speaks Turkish and English, and interpreters can be arranged for patients who prefer another language. Before a visit, the hospital's international patient team coordinates the collection of prior reports and imaging, for example MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and...
