CLINICAL FOCUS

Her clinical work covers the diagnosis and treatment of gum disease and related conditions. This includes the assessment and management of bleeding gums, gum recession, gum abscesses, oral sores and bad breath, as well as dental calculus cleaning.

Dr. Yazar additionally works in the area of gum aesthetics. This includes the evaluation of the gum line and its relationship to the teeth and lips, and procedures such as Botox for a gummy smile. The suitability of any periodontal or aesthetic procedure depends on a clinical examination and on the condition of the patient's gums, teeth and any existing implants, and the options are discussed with the patient before a...

INTERNATIONAL PATIENTS

Dr. Yazar consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. The Acibadem international patient team coordinates the collection of prior reports and imaging, such as dental X-rays, previous treatment records and any relevant laboratory results, and arranges appointments and the hospital visit.
