CLINICAL FOCUS

A central part of Dr. Can's practice is joint replacement. He performs hip replacement surgery and knee replacement surgery, and he also uses robotic surgery techniques where they are considered appropriate for the individual patient. In addition, he treats conditions of the foot and ankle, including surgical management when indicated.

His second area of focus is sports medicine and sports traumatology. He assesses and treats meniscus tears, muscle tears, and other knee and joint injuries, and he provides trauma care for orthopedic injuries.
