CLINICAL FOCUS

Dr. Karako's areas of expertise include tooth fractures and enamel loss, dental root infection, tooth wear and bad breath. For teeth affected by infection of the root, he performs root canal treatment; where a tooth cannot be preserved, tooth extraction and replacement with dental implants are among the options he offers.

In aesthetic dentistry, his work includes porcelain restorations, laminate veneers, zirconia restorations and composite bonding. He also applies botulinum toxin to the masseter muscle for selected dental and jaw-related concerns, such as teeth grinding and temporomandibular joint conditions, and may recommend night guards where...
