Gynecology & Obstetrics

CLINICAL FOCUS

A central part of Dr. Çakır's practice is urogynecology, including the assessment and management of urinary incontinence, bladder health and disorders, and pelvic pain and functional disorders.

Dr. Çakır also provides menopause care and general gynecological assessment, including evaluation and follow-up for HPV and sexually transmitted infections. In obstetrics, his practice covers pregnancy follow-up and delivery, including epidural delivery. He additionally performs genital aesthetic procedures.
