CLINICAL FOCUS

Dr. Karaüzüm assesses and treats patients with tooth alignment and bite concerns. Her orthodontic practice includes metal, ceramic and lingual braces as well as clear aligner treatment, and she reviews the suitability of each appliance type with the patient after a clinical examination.

In aesthetic dentistry, Dr. Karaüzüm works with porcelain veneers, laminate veneers, zirconia restorations and composite bonding. The choice between these options depends on the condition of the teeth, the extent of change sought and the findings of the clinical examination, and she discusses the possible approaches with each patient...

Trismus · Clear aligner treatment · Preventive orthodontic treatment · Short-term orthodontic treatment · Aesthetic dentistry
