CLINICAL FOCUS

Dr. Sucak evaluates and treats patients with malignant blood diseases, including leukemia, with a focus on acute lymphoblastic leukemia and acute myeloid leukemia, as well as lymphoma, myeloproliferative diseases, multiple myeloma and other plasma cell disorders.

In addition to blood cancers, she sees patients with non-malignant hematological conditions such as anemia, bleeding disorders and clotting disorders. The appropriate assessment and treatment plan depends on the individual diagnosis and is discussed with each patient after a review of the relevant findings.

Leukemia Lymphoma Myeloproliferative Diseases
Multiple Myeloma Plasma Cell Disorders

CONDITIONS TREATED

Leukemia Lymphoma Myeloproliferative diseases
Multiple myeloma Hairy cell leukemia
