## SPECIALTY

Orthopedic Surgery &  
Traumatology

## FOCUS

Hip and Knee Replacement  
Surgery

## HOSPITAL

Acibadem Kent Hospital  
(Izmir)

## DEPARTMENT

Orthopedics & Joint Center

## CLINICAL FOCUS

A central part of Dr. Türken's work is the assessment and management of osteoarthritis and other joint diseases. When conservative measures are no longer sufficient, he performs hip replacement surgery and knee replacement surgery. The decision to proceed with joint replacement is based on the patient's symptoms, functional limitations, imaging findings and general health, and the choice of approach is discussed individually...

His second area of focus is orthopedic trauma, including minimally invasive trauma surgery where the pattern of injury allows it. Within sports medicine and sports traumatology, Dr. Türken treats meniscus tears, muscle tears and other knee and joint injuries. He also assesses patients with flat feet.

Osteoarthritis

Joint diseases

Hip replacement surgery

Knee replacement surgery

Orthopedic trauma

## INTERNATIONAL PATIENTS

Dr. Türken consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior medical reports and imaging, arranges appointments and organises the hospital stay.
