HOSPITAL
Acibadem International Hospital, İstanbul

DEPARTMENT
Anesthesiology & Reanimation

CLINICAL FOCUS

Her areas of expertise include perioperative anesthetic management, pain control, evidence-based anesthetic techniques and intensive care management. In the perioperative setting, this involves assessing patients before an operation, planning and delivering anesthesia during the procedure and following the patient through the early...

In the intensive care unit, Dr. Ayyıldız is involved in the ongoing monitoring and management of critically ill patients. This work is closely coordinated with the surgical and medical teams responsible for each patient, and she works with multidisciplinary teams to help ensure continuity of care during critical illness.
