DEPARTMENT
Anesthesiology & Reanimation

CLINICAL FOCUS

Dr. Ogan's areas of expertise cover the continuum from the operating room to the intensive care setting. In perioperative anesthesia care, she is involved in the assessment of patients before surgery, the administration and monitoring of anesthesia for surgical procedures, and the follow-up of patients as they recover from anesthesia.

In the Intensive Care Unit, her practice focuses on critical care support and reanimation. This involves the close observation of patients whose vital functions need to be supported or stabilized, the coordination of treatment with the surgical and medical teams responsible for the patient, and ongoing reassessment as the clinical...
