CLINICAL FOCUS

Dr. Göksel's clinical work covers a range of spinal and musculoskeletal complaints. She evaluates and treats low back pain, back pain and neck pain, including symptoms related to disc herniation, facet joint syndrome and neck straightening (loss of the normal cervical curve).

A further part of her practice is pain management for persistent or long-standing complaints, together with the care of patients with fibromyalgia and restless legs syndrome. Within the Movement Disorders Treatment subspecialty, Dr.
