CLINICAL FOCUS

A significant part of Dr. Bahadır's practice is the assessment and management of smart lens procedures and cataract. Patients presenting with clouding of the natural lens or with refractive concerns are examined to determine whether lens-based treatment is a suitable option, and the possible approaches are discussed in the context of the...

Dr. Bahadır manages glaucoma, a condition that requires careful monitoring of intraocular pressure and the optic nerve over time. Her practice further includes paediatric eye conditions and amblyopia, in which early assessment of a child's vision is central to planning care.
