Internal Medicine

CLINICAL FOCUS

Dr. Çimen's clinical work covers a broad range of internal medicine conditions, with particular attention to metabolic disease diagnosis and treatment. She evaluates and manages patients with prediabetes, type 1 diabetes and type 2 diabetes, as well as obesity and other chronic diseases that require long-term follow-up.

Her areas of expertise also include anemia and conditions of the digestive organs, including pancreatic diseases, liver diseases and biliary tract diseases. Alongside conventional internal medicine, Dr. Çimen has an interest in functional medicine as an approach to assessing patients with chronic and metabolic conditions.
