CLINICAL FOCUS

The areas of expertise listed for Ayşe Günsay are foot health, podology and foot care. Podology is concerned with the assessment and care of the feet, and in her practice this covers the evaluation of foot-related complaints and the provision of foot care within the scope of a podology service. Each patient is assessed individually.

Foot care of this kind is often ongoing rather than limited to a single visit. Part of Ayşe Günsay's work therefore involves talking with patients about how their feet can be looked after between appointments, in a way that is appropriate for their individual situation.

INTERNATIONAL PATIENTS

Ayşe Günsay speaks Turkish and English. For patients traveling from abroad, the international patient team coordinates the collection of prior reports and imaging, for example X-ray or ultrasound reports, laboratory results and records of previous treatments, arranges appointments and organizes the visit to the clinic.
