CLINICAL FOCUS

Dr. Sarıoğlu's clinical practice is devoted to pediatric cardiology. Her areas of expertise include pediatric cardiac assessment and children's cardiac care. In practice, this involves evaluating infants, children and adolescents with suspected or known heart conditions, reviewing previous findings and coordinating ongoing cardiac...

Her publication record reflects long-standing involvement in the care of children with congenital heart disease. She has co-authored papers on topics including surgical approaches to atrioventricular septal defects and tetralogy of Fallot, congenital cardiac reoperations, systemic-to-pulmonary shunt operations in neonates with...
