CLINICAL FOCUS

Dr. Tuğlular evaluates and treats both malignant and non-malignant hematological conditions. In the area of blood cancers, her expertise includes leukemia, with a particular focus on acute lymphoblastic leukemia and chronic myeloid leukemia, as well as lymphoma, multiple myeloma and related plasma cell disorders.

Her practice also covers non-malignant blood disorders. These include anemia in its different forms, among them iron deficiency anemia and pernicious anemia, and immune thrombocytopenia, a condition in which the platelet count is reduced. In hematology, the appropriate approach depends on the specific diagnosis, the stage or severity of the condition and the patient's general health. Dr.

INTERNATIONAL PATIENTS

Dr. Tuğlular consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the international patient team coordinates the collection of prior reports and imaging, such as laboratory and pathology results, MRI, CT, X-ray or ultrasound reports, operative notes and discharge summaries, arranges appointments and organizes the...
