Hospital, İstanbul

DEPARTMENT
Gynecology & Obstetrics

CLINICAL FOCUS

A central part of Dr. Özkaynak's practice is endometriosis treatment, together with the assessment and management of pelvic pain, menstrual pain and menstrual irregularities. Her training in laparoscopic anatomy for gynecological techniques relates to this area of work.

Dr. Özkaynak provides menopause care, addressing symptoms and health considerations that arise during and after the menopausal transition. In obstetrics, her areas of expertise include epidural birth.
