Hospital, İstanbul

DEPARTMENT
Gynecology & Obstetrics

CLINICAL FOCUS

In obstetrics, Dr. Sancaklı provides pregnancy follow-up and delivery care. Her practice includes epidural delivery, cesarean delivery and water birth, and she also manages ectopic pregnancy. The choice of delivery method is discussed with each patient in light of her medical history and the course of the pregnancy, and the plan may need to be adjusted if the clinical situation changes.

In gynecology, her areas of expertise include menstrual irregularities, sexually transmitted diseases and sexual dysfunction treatment. A significant part of her work is in urogynecology, including the assessment and treatment of pelvic organ prolapse. She performs hysterectomy and vNOTES scarless surgery. Whether a surgical or non-surgical approach is appropriate depends on the individual findings, and Dr.
