CLINICAL FOCUS

A significant part of Dr. Ceviz's practice is devoted to headache and migraine. He evaluates patients with recurrent or persistent headache, reviews their symptom history and previous medications, and discusses management options. His practice also includes migraine Botox treatment, which may be considered for selected patients after a clinical assessment. In addition, Dr.

Dr. Ceviz's subspecialty interest lies in dementia, Alzheimer's disease, Parkinson's disease and the neurological aspects of aging. He assesses patients presenting with memory concerns, changes in thinking or behavior, tremor, slowness of movement or difficulties with walking and balance.

INTERNATIONAL PATIENTS

Dr. Ceviz consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI or CT reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the hospital visit.
