CLINICAL FOCUS

Dr. Yazar's clinical work covers the medical treatment of solid tumours in adults. His areas of expertise include lung and thoracic cancers, breast cancer, stomach cancer, pancreatic cancer, liver cancer and colorectal cancers.

His published work reflects a particular interest in lung cancer. He has co-authored studies on the prognostic and predictive value of serum vascular endothelial growth factor and related markers in small cell and non-small cell lung cancer, a phase II study of gemcitabine and cisplatin as neo-adjuvant chemotherapy for non-small cell...
