CLINICAL FOCUS

Dr. Anayurdu's clinical work falls within two closely related areas: diagnostic imaging and radiologic image interpretation. As a radiologist, her role is to evaluate the images produced by imaging examinations and to prepare a written report describing the findings.

Imaging findings are read in context. Where earlier examinations are available, comparison with previous images can help to determine whether a finding is new, stable or changing, which is why prior imaging is regularly requested before or alongside a new examination. Descriptions of specific imaging methods, such as coronary CT angiography and PET-CT imaging, can be found on the linked pages;

Diagnostic imaging

Radiologic image interpretation

INTERNATIONAL PATIENTS

Dr. Anayurdu speaks Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging — for example MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries — and arranges appointments and...
