Hospital, İstanbul

DEPARTMENT
Neurosurgery

CLINICAL FOCUS

Pediatric neurosurgery is the core of Dr. Tanrikulu's practice. He evaluates and treats children with pediatric brain tumors, including deeply located tumors, as well as hydrocephalus, craniosynostosis, spina bifida, arachnoid cysts and Chiari malformation.

A further area of his practice is functional neurosurgery for epilepsy. Dr. Tanrikulu performs epilepsy surgery and vagus nerve stimulation for selected patients whose seizures are not adequately controlled with medication, and he also performs deep brain stimulation.
